Chicago Area Schweitzer Fellows for Life Program

The Chicago Area Schweitzer “Fellows for Life” Program is a network of Schweitzer alumni committed to continuing their engagement in service and the ideals of Dr. Schweitzer and Health & Medicine.

The “Fellows for Life” program aims to:
- Further engage alumni in the ideals of Albert Schweitzer
- Provide opportunities for networking between the alumni
- Provide opportunities for community engagement
- Promote leadership and professional development
- Provide a sense of camaraderie amongst a group of like-minded individuals

As a Fellow for Life, you can help further the goals of the Schweitzer Program by attending events, interviewing prospective fellows, sharing opportunities, participating in healthcare workforce activities, donating, applying for seed grants and staying connected with each other.
