From your role or
perspective, what would
a trauma-informed
Illinois mean to you in
your community?

As a Chicagoan who believes that we are all responsible for the well-being of children and youth in our communities, #MyTraumaInformedIL means that our policymakers listen to, respect, and act on the ideas for healing and support coming from the young people across the state who are most likely to be impacted by violence and trauma.

Bridget Gavaghan, Director of the Illinois ACEs Response Collaborative

As a daughter of immigrants and member of the Latinx community in Southwest Chicago, #MyTraumaInformedIL means a society where policies, systems, and institutions afford everyone with the dignity and humanity to live healthy, economically secure lives regardless of race, ethnicity, or citizenship status.

Mayra Diaz, Policy Analyst, Illinois ACEs Response Collaborative

As an LGBTQ Chicagoan, #MyTraumaInformedIL is one where LGBTQ youth from Chicago to Carbondale are given the resilience-building support and affirmation from policymakers, educators, and their communities to be happy healthy and thriving.

Madison Hammett, Training & Capacity Building Manager,
Illinois ACEs Response Collaborative

Building a Healing Centered Illinois

Illinois Aging Together
@ILAgingTogether

...

[#MyTraumaInformedIL](#) would acknowledge the life experiences--both ACES & adverse events across the life course--that create barriers to health and aging equity. We hope for a strategic action plan for aging that brings together trauma informed experts to create informed policy.

#MyTraumaInformedIL

Health & Medicine
@HMPRG

[#MyTraumaInformedIL](#) is a community that acknowledges the stories and experiences of others with respect, compassion, and love. When we lead with empathy and healing we build the foundation for strong, resilient communities. - Jennifer McGowan-Tomke, MPH, HMPRG Board Secretary

#MyTraumaInformedIL

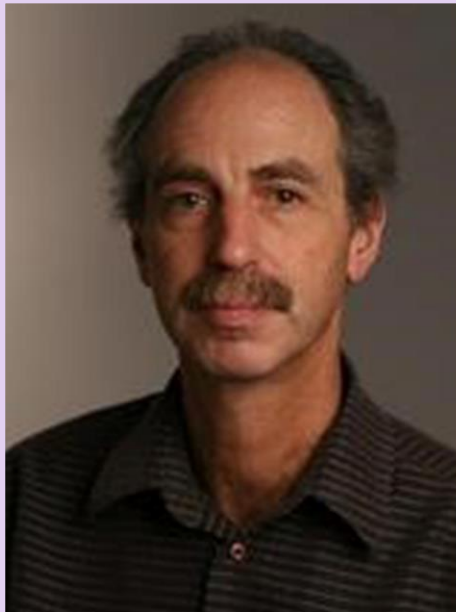

Health & Medicine
@HMPRG

As HMPRG Board President, [#MyTraumaInformedIL](#) means Illinois' growing commitment to address the devastation of childhood trauma will greatly benefit the 25% of my adult patients who have endured adverse childhood experiences. Register for our TIA event, ow.ly/leoX50IZBcy

-Steve K. Rothschild, MD, HMPRG Board President and Professor and Chair, Department of Family Medicine, Rush University Medical Center

#MyTraumaInformedIL

Health & Medicine
@HMPRG

"As a researcher who has studied the long-term health impacts of ACEs, [#MyTraumaInformedIL](#) means making the prevention of childhood adversity and trauma central to the state's health and social policies."

—HMPRG Board Member and Northwestern Medicine Professor Joe Feinglass
